## ALBANYE FILES - THE FALL OF ENLIGHTENMENT

Communism has perished. The Communist world. Khrushchev's collapse has demonstrated once again the complete failure of the Soviet system and its foreign policy. The instability of the Soviet system, the continued struggle for power has convinced even the ardent Communist that there is no profit in remaining within the Soviet orbit. Daily, more and more Communists are resolving their own destiny fleeing to the free world.

Now tells the story that it is returning to the system of Stalin which brings Albanians into some sort of liberation, and greater leadership. The system will again be one of national groups and nations exchange certificates will be useless. Albanian soldiers know that the economy of Bulgaria means that the Communists are ready to sacrifice the lives of Albanians within a few days of the fall.

Albanians are now in the hands of the Albanians. The fall of the system has shown the strength and solidarity of the Free World reduced to the pressure by the millions of people held down for years and bursting in demand for relief. It was the escape of the Albanians to the West to oppose the mounting criticism by the people of the major Soviet programs.

Albanians! Take new hope! Khrushchev's collapse signifies the inner decay of Communism in Russia as well as abroad. The regime can withstand the united opposition of a strong, courageous people. Stand together! Break with Bulgaria! For Freedom! For Albania! For the Red and Black Flag!
